

Congratulations Class of 2025

Mpumalanga, a Province for All

We are guided by the Freedom Charter, which serves as a pillar of our Constitution and the cornerstone of our democracy, driving government efforts to eradicate poverty, unemployment, and underdevelopment.

Our provincial economy is gradually growing. Unemployment started declining Poverty rate and levels of inequality have declined significantly. Inflation is at its lowest in many years. We are continuously recording an increase in Matric pass rate.

Bachelor degree passes increased to twenty eight thousand, six hundred and ten (28,610), demonstrating an increase in the quality of our education.

The rand is stronger than the dollar in 20 years, meaning we pay less for imports For the first time in our history, 27 doctors are now permanently placed in local clinics.

This is our story, this is our song worth sharing with the people of Mpumalanga.

Does this mean all is perfect? Can we say, all is well? No! Not at all. We have not yet reached the promised land. It means we must roll up our sleeves, put our shoulders to the wheel, and work harder than before.

What we see is the light at the end of the tunnel, not an oncoming train, but a beacon of hope towards a brighter future.

Our government invests billions annually in education to equip learners with skills for a changing world. Our campaign, Rhandza Xikolo Xawena - Leave No One Behind #BabizeBonke, ensures that no learner is excluded.

Early Childhood Development (ECD) remains a top priority, forming the foundation for lifelong learning. Children exposed to ECD are more likely to succeed academically and socially.

Over 70,000 children are subsidized to access ECD programs through 1,300 registered community centers, while 69,221 Grade R learners are enrolled in public schools.

Through the School Health Services 18,287 Grade R learners have been screened for barriers to learning. The programme of professionalizing Grade R Educators is bearing fruits with 1 729 out of the total of 2 034 being qualified.

To improve reading for meaning thousands of foundation-phase teachers have been trained in reading strategies for English and African languages. As part of our efforts to retain and improve the learning capacity, 67,221 learners are benefitting from scholar transport, while over 1 million learners benefit from the No Fee School Policy and School Nutrition programs.

As a result, the throughput rate, that is learners starting Grade R and completing matric has improved to 67%, which is above the national rate of 64%. This is a remarkable achievement. As part of promoting Ubuhle buzile e-learning programme in our rural schools, Government has distributed 60,000 tablets to Grade 12 learners and we are rolling out tablets to 80,000 Grade ten learners.

Multiple sanitation, water, classroom expansion, and school construction projects are underway or completed, often in partnership with businesses.

In the previous State of the Province Address, we made a firm commitment to prioritise the upgrading and replacement of 53 aging, community-built schools across our province.

I am pleased to report that we have already commenced with the construction of 29 new schools, of which ten will replace old community-built schools. This means we now have 43 schools remaining under this commitment. During the current financial year, an additional 10 schools will be constructed, including the much-anticipated school for the deaf and blind.

To further fast-track progress, we are introducing a special programme to build 10 more schools, implemented in phases, each comprising two blocks of eight classrooms.

Through this accelerated approach, we are steadily eliminating old and unsuitable learning environments and restoring dignity to our learners and educators.!

The year 2025 demonstrated what is possible when leadership is decisive, policy direction is clear, communities, educators, parents, and learners are mobilized behind a shared and compelling vision.

From the very beginning of the 2025 school year, Mpumalanga Province proved that progress is achievable when government, communities, teachers, and learners stand and work together.

The Hon. Premier, Mr. Mandla Ndlovu, led from the front by supporting us from the very school day in 2025 and we are still enjoying that support today.

His visible leadership reinforced a clear message across the system that performance, discipline, and accountability are non-negotiable.

We salute my predecessors for their tireless efforts.

As we gather today to celebrate the release of our matric results, I would like to take a moment to express my deepest gratitude and appreciation to all those who have paved the way for our success.

To our predecessors, I salute you. Your tireless efforts, dedication, and perseverance have laid the foundation for our achievements.

Your legacy continues to inspire and motivate us to strive for excellence.

We acknowledge the challenges you faced, the obstacles you overcame, and the sacrifices you made to ensure that we had access to quality education. Your impact on our lives is immeasurable, and we are forever grateful.

As we celebrate our results today, we do so with humility and appreciation for the path that was paved for us.

We promise to build upon your legacy, to strive for greatness, and to make you proud.

Thank you for your hard work, your wisdom, and your unwavering commitment to education. We stand on your shoulders, and we are honored to follow in your footsteps

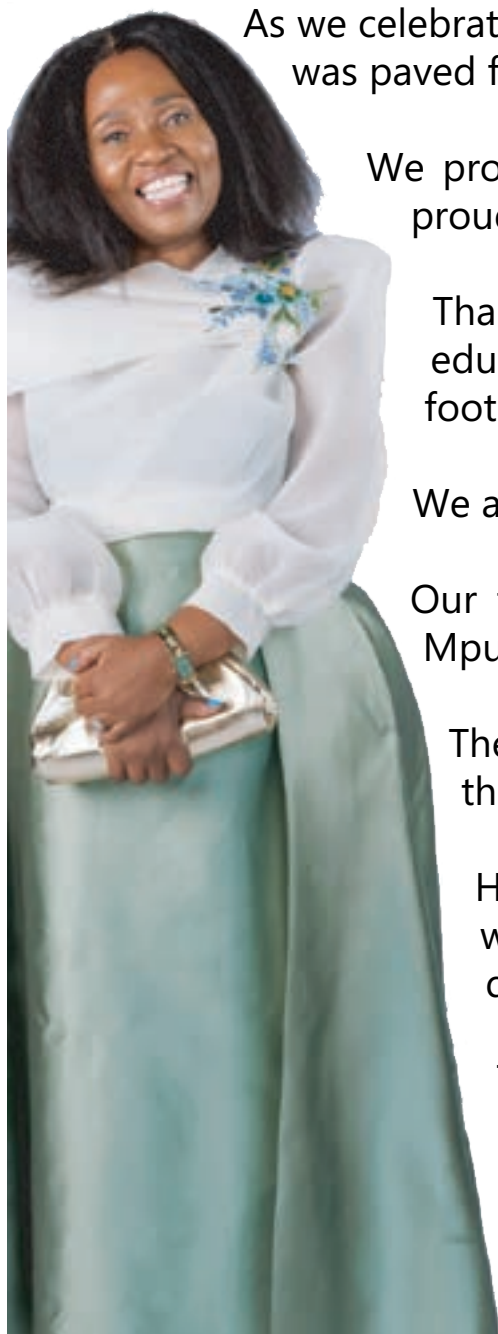

We are equally humbled by the dedication and passion of our educators.

Our teachers, the heartbeat of our education system, once again proved that Mpumalanga is rich in talent, dedication and patriotic character.

Their dedication was recognized nationally when Mr. Thulani Sibiyi was crowned the Overall Best Teacher in South Africa at the 2025 National Teaching Awards.

His recognition symbolized the daily commitment of thousands of educators who inspire learners, support them through adversity, and prepare them with discipline, care, and professionalism.

Their work remains the foundation upon which all our achievements stand. We truly salute our teachers.

PERFORMANCE: SCIENCES (2023 – 2025)

Well done, Class of 2025!

86.5 % pass rate is major achievement.
You raised the Provincial Flag high through your outstanding achievements.
May this milestone be the beginning of even greater heights.
